

**FREDENBERG TOWNSHIP
RECYCLE CENTER COLD WEATHER POLICY**

SUBJECT:
RECYCLE CENTER

APPROVED BY:
Town Board Supervisors

NUMBER:
2020-01

REFERENCES
MINUTES 03/06/19, 04/03/19, 03/04/20

EFFECTIVE DATE
March 4, 2020

REVISE DATE

PURPOSE: The purpose of this policy is to establish criteria for closing of the Fredenberg Recycle Center due to inclement weather (snow and/or cold) conditions for the safety of Recycle attendants.

PROCEDURES:

1. The Town Board Supervisor overseeing Recycle Center or Town Board Chairman will use **actual and wind chill temperatures & Hermantown school closing** (if applicable) to determine closing of the Center. Actual temperature of minus 25 (-25) and/or wind-chill temperature of minus forty (-40) will warrant closing, as well as National Weather Service temperature warnings and Hermantown School closings (on scheduled Recycle days) because of temperatures. Closings for snow storm will be determined by event, with attendants contacting Board Supervisor overseeing Recycle Center to determine closing and if another Township Supervisor or Employee can cover hours.
2. If the Recycle Center is closed, it will be posted on the ticker on the Township web site, Fredenberg.org, posted on Next Door Fredenberg site and if able sign will be posted at the Recycle Center.
3. Attendants are not required to go out to assist patrons with their recycling and on cold weather days, should remain in the heated structure.
4. A sign will be posted on the outside of the Recycle Center to inform the public of cold weather policy.
5. All current and future Recycle attendants will be educated in Recycle Center Cold Weather Policy
